

Return Eligibility & Conditions

Document Code: RET-002 | Version: 1.6 | Effective Date: 1 Jan 2026

1. General Eligibility Conditions

- The return request is raised within the applicable return window for the category.
- The item is unused, unworn, and unwashed, with original tags and packaging intact.
- All original accessories, manuals, freebies, and warranty cards are included.
- The product is not on the non-returnable list for its category.

2. Reasons That Qualify for Free Return Pickup

- Wrong item delivered (different from what was ordered).
- Item received is damaged or defective.
- Item is missing parts or accessories listed on the product page.
- Significant difference between the product description and the item received.
- Counterfeit or non-genuine product suspected.

3. Reasons That May Incur a Return Shipping Fee

- Customer changed their mind ("no longer needed").
- Wrong size or color ordered by the customer where accurate sizing information was provided.
- Item does not match personal preference or expectation, despite matching the listing.

4. Exchange vs. Return

Where stock is available, customers may choose a direct exchange (e.g., for a different size) instead of a refund. Exchanges follow the same eligibility conditions as returns and are subject to one exchange per order line.

5. Proof Requirements

For damaged, defective, or incorrect items, customers must upload photos or a short video of the item and its packaging within 48 hours of delivery to qualify for an expedited, fee-free return.

6. Disputes

If a seller disputes the reason for return, the case is escalated to the platform's Trust & Safety team, whose decision on eligibility is final for marketplace transactions.
