

Seller Code of Conduct

Document Code: SEL-002 | Version: 2.2 | Effective Date: 1 Jan 2026

1. Fair Dealing

Sellers must represent products truthfully, honor listed prices and stock availability, and avoid any practice intended to mislead buyers, including fake urgency counters or inflated "original price" comparisons.

2. Prohibited Items

- Counterfeit or unauthorized replica goods.
- Weapons, explosives, and hazardous chemicals restricted by local law.
- Prescription medicines without proper licensing.
- Stolen goods or goods with tampered serial numbers.
- Content or items violating intellectual property rights.

3. Order Fulfillment Standards

- Ship orders within the stated processing time.
- Package items securely to prevent transit damage.
- Do not substitute a different item without prior buyer consent.
- Keep inventory counts accurate to avoid confirmed-then-cancelled orders.

4. Communication Standards

Sellers must respond to buyer messages within 24 hours and must not use buyer contact information for purposes outside the platform, including unsolicited marketing.

5. Performance Metrics

Seller storefronts are scored on order defect rate, late shipment rate, cancellation rate, and customer rating. Scores below the minimum threshold may result in reduced search visibility, listing limits, or account suspension.

Metric	Warning Threshold	Suspension Threshold
Order Defect Rate	> 2%	> 5%
Late Shipment Rate	> 5%	> 10%

Cancellation Rate	> 3%	> 7%
-------------------	------	------

6. Violations and Appeals

Sellers found in violation are notified with a reason code and may submit an appeal with supporting evidence within 7 days before enforcement action (warning, listing removal, or suspension) is finalized.
