

Seller Commission & Fees

Document Code: SEL-003 | Version: 1.7 | Effective Date: 1 Jan 2026

1. Fee Components

- Commission fee — a percentage of the item price, varying by category.
- Payment processing fee — a small percentage covering payment gateway costs.
- Fulfillment fee — applicable if the seller uses platform-managed warehousing.
- Optional advertising/promotion fees for sponsored placements.

Category	Typical Commission Range
Fashion & Apparel	8% – 12%
Electronics	3% – 6%
Home & Living	6% – 10%
Beauty & Personal Care	8% – 12%
Groceries	3% – 5%

2. Payout Schedule

Seller payouts are released on a regular cycle (e.g., weekly or bi-weekly) after deducting commissions, fees, and any pending refund holdbacks, once the return window for the relevant orders has closed.

3. Holdbacks and Reserves

A portion of payout may be held in reserve for new sellers or sellers with elevated return rates, to cover potential refunds or chargebacks.

4. Fee Changes

Commission and fee structures may be updated periodically. Sellers are notified in advance of any change via the seller dashboard and email, with a minimum notice period before the new fees take effect.
